

Order educational materials about behavioral health services available at no cost

Mercy Care has created educational materials to raise awareness about grant-funded services available **AT NO COST** to eligible children, youth and adults. These services are for people who have mental health or substance use disorders but do not have health insurance. Someone with health insurance may still be eligible if their insurance doesn't cover the treatment they need.

These grants include Mental Health Block Grant (MHBG), Substance Abuse Block Grant (SABG) and American Rescue Plan Act (ARPA) grants. You can order posters, brochure and pocket guides today. Share them with your members, their families and the community. Make them available in your clinics, offices and centers. Get a close-up view of each item by simply clicking on the link.

Once you complete the order form, save it and email it as an attachment to Grants@MercyCareAZ.org. If you have questions, you can also email the Mercy Care Grants team at Grants@MercyCareAZ.org

Recognize. Reach out. Refer.

You can help your neighbors and your community. Recognize that many people can't afford the mental health care they need. Reach out to them. Let them know that help is available. Refer them to Mercy Care so they can find out if they qualify for mental health services and supports through MHBG funding.

Mental health treatment is available

This brochure details eligibility requirements for a Mental Health Block Grant. The funding provides mental health treatment services to uninsured:

- Individuals experiencing a first episode of psychosis (FEP)
- Children, 17 years and younger, with a serious emotional disturbance (SED)
- Adults, 18 years and older, with a serious mental illness (SMI) determination

Substance Abuse Block Grant (SABG)

Learn how you can get support and services for substance use disorders

If you or someone you know may be experiencing substance use issues, it's important to get help early. What if you don't have health insurance? What if your health insurance doesn't cover treatment? You may qualify for help.

Some people can get treatment and services through the Substance Abuse Block Grant (SABG). This grant can help pay for various types of treatment for substance use and behavioral health services.
