

Augmentative and Alternative Communication (AAC) devices

What is an AAC device?

An AAC device gives a member added ways to tell their wants, needs and thoughts. These devices are computer tablets that assist a person with a speech or language impairment. They can communicate using images from the tablet screen. This is a covered benefit for all Mercy Care Medicaid members with a medical necessity for an AAC device: Complete Care, ACC-RBHA, Division of Developmental Disabilities, DCS Comprehensive Health Plan (CHP) and Long Term Care.

How to request an AAC device

Complete these steps:

1. Ask your Primary Care Provider (PCP) for a prescription to receive an assessment by a Speech Language Pathologist (SLP). This prescription is good for 12 months.
2. Schedule an appointment with the SLP for the assessment. You can find a list of in-network licensed and registered SLP's at mercyar.es/aacdevice or by calling member services.
3. The Speech Language Pathologist will perform the evaluation. This will determine if your family member would benefit from the use of an AAC device.
4. Mercy Care must give Prior Authorization before ordering the AAC device.
5. The AAC device vendor will mail or deliver the AAC device to your home.

Support once you have the device

AAC device treatment

Once the member receives the AAC device, contact the SLP to schedule AAC device treatment. The first treatment should be completed no later than 90 days after Prior Authorization (PA) was given to order the AAC device.

AAC device repairs

- All repairs require Prior Authorization by Mercy Care.
- Mercy Care will cover one device repair every 12 months due to normal wear and tear unless the device is under warranty.
- You can work with the original treating Speech Language Pathologist or AAC device vendor to confirm if the device is under warranty.
- The AAC device vendor will help you to return the device if it's under warranty.
- Mercy Care won't cover the replacement of applications that have been deleted or can't be accessed due to loss of username and password.

AAC device replacements

The device and accessories typically last up to 36 months. Complete the AAC device ordering process again by getting a prescription from your PCP for an assessment by the SLP.

AAC device and/or accessories replacement will require a PA and may be replaced when:

- Lost or damaged beyond repair.
- It's been 3 years since the first prescription, and the AAC device no longer works.
- The AAC device doesn't meet the member's needs because their condition changed, and they need a re-assessment.
- The AAC device doesn't meet the member's needs despite adequate treatment.
- There is documentation, from the manufacturer, that the AAC device can't be repaired.
- Accessories that are damaged or worn.
- The AAC device is lost or stolen, and the following documentation is submitted:
 - A police report, if stolen.
 - A "Find My iPad" report from Apple (iPad only).

Re-assessment for device changes

A re-assessment by the SLP and device modification may be allowed if:

- At least 3 months of treatment is provided.
- There's a change in the member's medical condition.
- The member isn't meeting or exceeding current goals with the current AAC device.

If you have further questions, call Mercy Care Member Services at **602-263-3000** or toll-free **1-800-624-3879** (TTY/TDD **711**), Monday through Friday, 7 a.m. to 6 p.m.

Mercy Care complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex.

ENGLISH: ATTENTION: If you speak English, language assistance services, free of charge, are available to you. Call the number on the back of your ID card or **1-800-385-4104** (TTY: **711**).

SPANISH: ATENCIÓN: Si habla español, tiene a su disposición servicios gratuitos de asistencia lingüística. Llame al número que aparece en el reverso de su tarjeta de identificación o al **1-800-385-4104** (TTY: **711**).
