

Change to National Coverage Determination may affect your Medicare coverage

The Centers for Medicare & Medicaid Services (CMS) sometimes change the coverage rules that apply to an item or service under Medicare. When this happens, CMS issues a National Coverage Determination, or NCD.

NCDs tell us:

- What benefits and services are covered
- What benefits and services are changing
- What Medicare will pay for an item or service

CMS recently issued an update to the NCD that applies to the following service:

Monoclonal Antibodies Directed Against Amyloid for the Treatment of Alzheimer's Disease (AD)

Here is a description of the change to the NCD. This affects services given **on or after April 7, 2022**
